The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, CA 90012

Dear Supervisors:

**LANDSCAPE MAINTENANCE – WEST AREA
SUPERVISORIAL DISTRICTS 1, 3, AND 5
3 VOTES**

IT IS RECOMMENDED THAT YOUR BOARD:

1. Find that the contract work is exempt from the provisions of the California Environmental Quality Act (CEQA).
2. Award the contract for Landscape Maintenance – West Area in the annual sum of \$46,000 to Wurzel Landscape, located in Studio City, California. This contract will be for a term of one year commencing upon Board approval and execution by the parties, with two 1-year renewal options, not to exceed a total of three years. Funds are available in the Flood Control District's 2005-06 budget.
3. Delegate authority to the Director of Public Works to annually expend up to 15 percent of the annual contract sum for unforeseen additional work within the scope of work of the contract, if required.
4. Delegate authority to the Director to execute this contract; to renew it for each additional renewal option if, in the opinion of the Director, renewal is warranted; to grant month-to-month extensions not exceeding a total of six months for the convenience of the County; or to terminate it if, in the opinion of the Director, it is in the best interest of the County to do so.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

This contract is for as-needed and intermittent landscaping and grounds maintenance services to maintain Calabasas Creek, Aliso Creek, East Canyon Channel, Cheseboro Creek, Los Angeles River at Owensmouth Avenue, Ernie's Walk, Laurel Canyon Greenway, Doublegrove Relief Drain, and Los Angeles River from Coldwater Canyon Avenue East within the unincorporated County areas. The work to be performed will consist of trimming and care of trees, shrubbery, and vines; and weed and litter control. Additional work includes operation and management of irrigation systems, rodent control, and monthly maintenance reports. The previous contract expired October 4, 2005. Public Works forces are performing some of the work in the areas that need it most. The earliest possible effective date for this contract is desirable in order to return Public Works' staff to their normal assigned functions especially as we are now in the storm season. Public Works has contracted for this service since 2002. The purpose of this action is to continue contracting for this service.

Implementation of Strategic Plan Goals

The award of this contract is consistent with the County Strategic Plan Goals of Service Excellence and Organizational Effectiveness as the contractor has the specialized expertise to provide this service accurately, efficiently, timely, and in a responsive manner.

FISCAL IMPACT/FINANCING

The contract is for an annual amount not to exceed \$46,000, and this amount can be augmented by up to 15 percent annually for unforeseen additional work within the scope of the contract. This amount is based on the annual price quoted by the contractor.

Financing for this service is included in the Flood Control District's 2005-06 budget. In addition, should an unanticipated need arise in other Public Works funds, we will finance this service from the appropriate fund source. However, total annual expenditures for this service will not exceed the amounts approved by your Board and services in funds other than the Flood Control District will not be ordered without the funding authorization of Public Works' Financial Management Branch. There will be no impact on net County cost.

No cost-of-living adjustments will be granted under this contract.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Prior to the Director executing this contract, which is substantially reflected in Enclosure A, the contractor will sign and County Counsel will review it as to form.

Public Works has evaluated and determined that the Living Wage Program (Los Angeles County Code Chapter 2.201) does not apply to this recommended contract which is for services required on an as-needed and intermittent basis.

ENVIRONMENTAL DOCUMENTATION

These services are categorically exempt from CEQA as specified in Class 1, Sections (e), (j), and (s) of the Environmental Document Reporting Procedures and Guidelines adopted by your Board on November 17, 1987, Synopsis 57.

CONTRACTING PROCESS

On September 22, 2005, Public Works solicited proposals from 463 independent contractors and community business enterprises to accomplish this work. Also, a notice of the Request for Proposals (RFP) was placed on the County's bid website (Enclosure B) and an advertisement was placed in the Los Angeles Times.

On October 20, 2005, three proposals were received. The proposals were first reviewed to ensure they met the mandatory requirements outlined in the RFP. The proposals, having met these requirements, were then evaluated by an evaluation committee consisting of Public Works staff. The committee's evaluation was based on criteria described in the RFP, which included price, references, experience, work plan, and equipment. Based on this evaluation, it is recommended that this contract be awarded to the highest rated proposer, Wurzel Landscape.

Enclosure C reflects the proposers' minority participation. The contractor was selected upon final analysis and consideration without regard to race, creed, gender, or color.

This contract contains Board-approved contract terms and conditions regarding employee notification of the Federal-earned income tax credit, contractor responsibility and debarment, jury service requirements, no payment for services received after contract expiration or termination, the Safely Surrendered Baby Law, and the services contract solicitation protest policy.

The Honorable Board of Supervisors
December 8, 2005
Page 4

Proof of the required Comprehensive General and Automobile Liability insurance policies, naming the County as additional insured, and evidence of Workers' Compensation insurance will be obtained from the contractor before any work is assigned.

As requested by your Board, the contractor has submitted a safety record which reflects that activities conducted by the contractor in the past have been in accordance with reasonable standards of safety.

In accordance with the Chief Administrative Officer's June 15, 2001, instructions, this is Public Works' assurance that this contractor will not be requested to perform services that will exceed the contract's approved amount, scope of work, and/or terms.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The award of this contract will not result in the displacement of any County employees, as this service has been contracted with the private sector.

CONCLUSION

One adopted copy of this letter is requested.

Respectfully submitted,

The County reserves the right to determine if any work is or will be needed under this Contract, at the County's sole and absolute discretion. The Contractor will not be entitled to any claim for loss profits or otherwise should the County fail to determine a need for services under this Contract.

1. Tree Trimming and Care

- a. The Contractor shall perform as-needed tree trimming to accomplish the following:
 - 1) Remove all dead, weak, diseased, insect-infested, and damaged branches and limbs.
 - 2) Prevent encroachment on adjacent property and to maintain required proper vertical clearances, which are 8 feet for pedestrian areas and 14 feet for vehicular roadways.
 - 3) At a minimum, Elm, Eucalyptus, and Pepper trees shall be pruned every two years. All other trees shall be pruned every three years.
- b. The Contractor shall adhere to the following trimming procedures:
 - 1) All cuts shall be made sufficiently close, flush if possible, to the parent stem so that healing can readily start. No stubs will be permitted.
 - 2) All limbs 1-1/2 inches or greater in diameter shall be undercut to prevent splitting.
 - 3) All limbs shall be lowered to the ground using a method which prevents damage to the remaining limbs.
- c. The Contractor shall remove and dispose of all trees, which are downed by either natural or unnatural causes. Contractor shall dig out stumps or grind them to 12 inches below grade, remove the wood chips, and backfill the hole to grade with soil.

- 2) Install stakes in those cases where the tree has been damaged and requires staking for support.

Removal of tree stakes may be requested by the Contract Manager for trees with a diameter less than 3 inches. The cost for these items are to be included in the lump sum price in Schedule of Prices, Form PW-2, under the items with the following description, "All other work, such as Tree and Shrubbery Trimming and Care, Ground Cover Trimming and Care, Ornamental Grass Trimming and Care, Weed Control, Litter Control, Watering and Irrigation Management, Rodent Control, etc."

2. Shrubbery/Vines Trimming and Care

- b. Contractor shall trim the shrubs at the access gates a minimum of once a year during the month of March and as needed during the rest of the year to ensure they do not grow taller than 4 feet. These shrubs shall be trimmed no shorter than 3-1/2 feet in height.
- c. It is Public Works' intention for the landscape within the flood right of way to look natural. If pruning is necessary, the Contractor shall prune back branches individually and not shear plants.

5. Weed Control

- a. Shrubbery, Ground Cover, and Ornamental Grass Area
 - 1) Contractor shall keep all landscape areas, including shrubbery, ground cover, and ornamental areas weed free at all times. - b. Litter control shall take place on a weekly basis in all ten locations.
- c. At locations where trashcans/receptacles exist, they shall be emptied and cleaned at least once a week. The cost of trashcan liners and supply shall be considered as part of the sites' monthly maintenance cost.

7. Watering and Irrigation System Management

Contractor shall be responsible for the operation of the automatic irrigation controllers and management of the complete irrigation system to provide the proper amount of water to the various species of plants.

The irrigation system is automatically controlled through electrically powered or solar powered irrigation controllers and remote control valves. There is one automatic irrigation controller on each side (north and south) of San Fernando Mission Boulevard. All irrigation systems for ground cover, shrubs, and trees are a combination of permanent, below ground, water-conserving drip systems and overhead spray systems.

a. Irrigation

- 1) Contractor shall operate the irrigation system in a way as to not cause excessive wetness, "waterlogged" areas. Native and drought-tolerant plant material has been used throughout these various locations and require a minimal amount of water. Over-watering may cause the plants to die. The Contractor shall incorporate infrequent deep-watering techniques to encourage deep-rooting, drought-tolerant plant characteristics to promote a self-sustaining, irrigation-free landscape.
- 2) When determining the watering schedule (controller settings for water quantities and frequencies), Contractor shall consider the season, weather (rainfall and temperature), variation in size and varieties of plants, along with the desired infrequent deep-watering techniques. Seasonal controller rescheduling of circuits (systems) should occur at least twice during the year, usually during spring and fall and should be considered as part of the routine maintenance.
- 3) If necessary, Contractor shall use a moisture-sensing device to determine water penetration into the soil.
- 4) Contractor shall turn off the irrigation system at the controller during or following rainy weather when the soil has a high enough moisture content that watering is not required.
- 5) If an automatic irrigation system, or a portion of a system, malfunctions, the Contractor shall be responsible for the manual manipulation of that system for a period of 30 days. Contractor shall report all systems which require manual operation to the Contract Manager at the end of each week

and also on the monthly maintenance report. Contractor's schedule for operating the irrigation system manually shall be approved by the Contract Manager for the manual operation to count toward the 30-day required period of manual operation. A system shall be manually operated a minimum of once a week for the week to qualify as part of the 30-day required period of manual operation. One manual operation of a system cannot count towards more than one week of the 30-day manual operation requirement. If the system requires manual manipulation for a longer period than the 30-day period the Contractor is required to provide, then the Contract Manager may opt to pay the Contractor supplementally to continue the manual manipulation, or may decide to terminate the supplemental irrigation.

- 6) If Public Works approves manual operation of the irrigation system past the 30-day period, the Contractor will be reimbursed at the hourly rate for personnel to manually operate the system. The County will not pay for preparation or travel time to and from the jobsite, only the actual time spent manually operating the irrigation system. The Contractor's schedule for operating the irrigation system manually shall be pre-approved by the Contract Manager as part of the approval for the Contractor to manually operate the irrigation system. The hourly cost to manually operate the irrigation system, past the required 30-day period, is not to be included in the total proposed price. This cost is to be included in Form PW-2, Schedule of Prices, Item 11.a, "Manual operation of irrigation system past the required 30-day period."

b. Irrigation System - Inspection and Maintenance

- 1) Contractor shall be responsible for the inspection and maintenance of the entire irrigation system and for specific repairs/replacements as noted in Exhibit A, Scope of Work, Item C.7.b.2. The County will be responsible for the repair or replacement of broken/worn-out components of the irrigation system: automatic controllers, backflow devices, gate valves, flow sensors, pressure regulators, wye strainers, filters, quick couplers, etc. The County will also be responsible for the inspection/certification of the mainline backflow devices located at each water service meter.

- 2) The County may at its discretion have the Contractor make additional repairs and/or replacements to the irrigation system. Contractor will be reimbursed for these repairs at an hourly rate agreed upon by the County and the Contractor. The County will not pay for preparation time or travel time to and from the jobsite for these repairs. Contractor may impose a four-hour minimum to be charged for emergency repairs. If the Contractor requests the above-mentioned minimum hour charge, it should be noted on the price for the hourly rate. The hourly bid price for irrigation repairs is not to be included in the total price, it is to be included in Form PW-2, Schedule of Prices, Item 11.b, "Irrigation system repairs (four-hour minimum for emergency call out." For work described in this paragraph, Contractor will be reimbursed for parts provided by the Contractor to make repairs at a price agreeable to the Contractor and the Contract Manager.
 - 3) To ensure the operability and the correct adjustment of the irrigation system, Contractor shall cycle controller(s) through each station manually and automatically to check the function of all facets of the irrigation system, report any damage or incorrect operation to the Contract Manager, and include that information on the monthly maintenance report. This inspection shall be performed once a month or more frequently if problems/conditions indicate a need. Beyond regular testing, irrigation systems shall be tested/inspected as necessary when damage is suspected, observed, or reported to the Contractor by Public Works. The cost for these additional inspections are to be included in the lump sum price on Form PW-2, Schedule of Prices, Items 1-10.e, "All other work, such as Tree Trimming and Care, Ground Cover Trimming and Care, Ornamental Grass Trimming and Care, Weed Control, Litter Control, Watering and Irrigation Management, Rodent Control, etc."
- c. Contractor shall perform the following tasks:
- 1) Respond to requests received from Public Works, pertaining to waterline breaks, etc., requiring an emergency response to shut off water or turn off the irrigation system (other than normal working hours). Contractor will be reimbursed for costs under Form PW-2, Schedule of Prices, Item 11.c, "Flat rate for emergency call back to shut off water, turn off irrigation system." This item is not to be included in the total proposed price.

- 2) Repair or replace damaged bubbler heads and risers as necessary.
 - 3) Clean or replace clogged bubbler heads and risers as necessary.
 - 4) Clean or replace clogged or damaged drip line emitters.
 - 5) Repair/replace immediately all broken drip lines or emitters which are causing a loss of water creating ponding or erosion.
 - 6) Maintain the filters for the drip system to help prevent the emitters from clogging. All filters at remote control valves shall be inspected and cleaned every two months. The location of any filter found to be worn out during this inspection shall be reported to the Contract Manager within one week of the discovery and also included on the required monthly maintenance report. The drip system filters are located within vaults located at the bottom of the backslope.
 - 7) Inspect and clean mainline filters, wye strainers, basket filters, and the filters at the backflow devices twice a year. The location of any filter found to be worn out during this inspection shall be reported to the Contract Manager within one week of the discovery and also included on the required monthly maintenance report.
 - 8) The bubbler heads in the vine pockets next to the parapet walls shall be inspected on a monthly basis to verify each vine is being watered.
 - 9) Recover and re-fasten removed valve box covers. Contractor shall report any missing valve box covers to the Contract Manager by the end of the day and also include that information on the required monthly maintenance report.
- d. The material and labor costs for repairing and replacing all equipment down stream of the backflow device shall be included in the base bid price except the material costs of the remote control valves, gate valves, and quick coupling valves and automatic irrigation controller, which will be reimbursed to the Contractor by Public Works.

8. Rodent Control

All areas shall be maintained free of rodents, including, but not limited to gophers and ground squirrels, since they may cause damage to shrubs, ground cover, trees and/or irrigation systems. The rodenticide product to be used shall be recommended by a licensed Pest Control Advisor and pre-approved by the Contract Manager.

9. Monthly Maintenance Reports

Contractor shall submit a proposed maintenance schedule prior to the start of this Contract. Contractor shall maintain and keep current a monthly maintenance report that records when all periodic, seasonal, additional work and maintenance functions performed by the Contractor's personnel were completed. The report shall also include: locations where erosion on the channel backslope greater than 6 inches have been discovered; locations where disease or insect infestation has been discovered; locations where trees, shrubs, vines, or other plants are missing or dead or should be removed; any dead trees and shrubs replaced; any irrigation systems which have to be operated manually; any problems with the irrigation system such as malfunctions, needed maintenance, or repairs/replacements. The Contract Manager will provide the report form. Contractor shall submit the maintenance report to the Contract Manager at the end of each month or upon request, within three working days.

D. Hours and Days of Service

Hours of services shall be primarily 7 a.m. to 4 p.m., Monday through Friday, except legal holidays, at which time the service shall be done before or after such holiday. Work hours may be altered, when necessary, with the approval of the Contract Manager.

Minimally, the Contractor shall provide telephone answering service and FAX, within the County from 8 a.m. to 5 p.m., Monday through Friday, except on legal holidays, to receive instructions, information, complaints, etc., from Public Works. Contractor shall also provide a 24-hour, 7 days a week emergency phone number to receive emergency reports from Public Works.

E. Utilities

Public Works will provide electric and water service to operate the irrigation system.

F. Removal of Debris

All debris derived from these landscaping services shall be removed from Public Works' property. Public Works will pay the Contractor for the dump fees. The Contractor shall be responsible for the removal, transportation, and disposal of the debris. The Contractor shall submit dump tickets along with the invoice each month, whereupon Public Works will reimburse the Contractor for the cost of the debris disposal only. Materials earmarked to a landfill shall be delivered to an approved dumpsite. Landscape waste materials diverted from landfills to cogeneration facilities shall be registered on a log to be submitted on a monthly basis to the Contract Manager.

G. Storage Facilities

Public Works will not provide storage facilities for the Contractor. Public Works will not be liable or responsible for any damage, by whatever means, or for theft of materials or equipment from the job site.

H. Work Area Controls

Contractor shall comply with all applicable laws and regulations and shall maintain work areas in a neat, orderly, clean, and safe manner. Contractor shall avoid spreading out equipment excessively. Location and layout of all equipment and materials at each jobsite shall be subject to the approval of the Contract Manager.

I. AB 939 County Diversion Requirements

The California Integrated Waste Management Act of 1989 (AB 939) required that all cities and counties in the State of California divert materials going to landfill by 50 percent by the year 2000. Based on this mandate, all contractors handling landscape waste materials for the County shall be required to divert all landscape waste materials from any landfills and cogeneration facilities. Landscape materials utilized for cogeneration or daily landfill cover may not qualify for diversion credit and, therefore, may not be acceptable methods of disposal of this material. Contractor shall be required to seek "recycling" alternatives for these organic, biodegradable landscape waste materials. Acceptable "recycling" alternatives would include the utilization of these materials as feedstock, for composting, co-composting, mulching, soil amendments, and wood chip products.

Contractor shall be required to arrange for the chipping and transport of all landscape materials to its selected processor with all cost to be borne by the Contractor. Use of any other processing method not listed above will require the approval of Public Works and must qualify for diversion credit as specified in

AB 939, or subsequent legislation. Proof of delivery of the material and weight tickets (from an approved public or private scale) shall be required.

J. Special Safety Requirements

- a. The County reserves the right to renegotiate the terms of this Contract to reduce the Contractor's compensation in the event such reduction is necessary, in the sole discretion of the County, to achieve County budget reductions. If this Contract is terminated, the Contractor shall, within 30 days of the Notice of Termination, complete those items of work which are in various stages of completion which the Director determines are necessary to bring the work to a timely, logical, and orderly end. Reports, samples, and other materials prepared by the Contractor under this Contract shall be delivered to the County upon request and shall become the property of the County.

4. Termination for Breach of Warranty to Maintain Compliance with County's Child Support Requirements

Failure of the Contractor to maintain compliance with the requirements set forth in Section 2, Paragraph F of this Exhibit B shall constitute a default by the Contractor under this Contract. Without limiting the rights and remedies available to the County under any other provision of this Contract, failure to cure such default within 90 calendar days of notice by the Los Angeles County Child Support Services Department shall be grounds upon which the Board may terminate this Contract pursuant to Paragraph AA.1 "Default," of this Section 2, and debar the Contractor pursuant to County Code Chapter 2.202.

BB. Notification

1. Notices desired or required to be given under these Specifications, Conditions, or Terms herein or any law now or hereafter in effect may, at the option of the party giving the same, be given by enclosing the same in a sealed envelope addressed to the party for whom intended and by depositing such envelope with postage prepaid in the United States Post Office or any substation thereof, or any public box, and any such notice and the envelope containing the same shall be addressed to the Contractor at its place of business, or such other place as may be hereinafter designated in writing by the Contractor. The notices and envelopes containing the same to the County shall be addressed to:

Chief Deputy Director
County of Los Angeles Department of Public Works
P.O. Box 1460
Alhambra, CA 91802-1460

In the event of suspension or termination of this Contract, notices may also be given upon personal delivery to any person whose actual knowledge of such suspension or termination would be sufficient notice to the Contractor. Actual knowledge of such suspension or termination by an individual Contractor or by a copartner, if the Contractor is a partnership; or by the president, vice president, secretary or general manager, if the Contractor is a corporation; or by the managing agent regularly in charge of the work on behalf of said Contractor shall in any case be sufficient notice.

CC. Changes and Amendments of Terms

The County reserves the right to change any portion of the work required under this Contract, or amend such terms and conditions which may become necessary. Any such revisions shall be accomplished in the following manner:

1. For any change which does not materially affect the scope of work, period of performance, payments, or any material term or condition included in this Contract, a Change Notice shall be prepared and signed by the Director and Contractor.
2. For any revision which materially affects the scope of work, period of performance, payments, or any material term or condition included in this Contract, a negotiated modification to this Contract shall be executed by the Board and the Contractor.
3. To the extent that extensions of time for Contractor performance do not impact either scope or cost of this Contract, Public Works may, at its sole discretion, grant the Contractor extensions of time provided, however, that

the aggregate of all such extensions during the life of this Contract shall not exceed 60 days.

DD. Confidentiality

The Contractor shall maintain the confidentiality of all its records relating to this Contract, according to all applicable Federal, State, and County laws, regulations, ordinances, and directives relating to confidentiality. The Contractor shall inform all of its officers, employees, and agents providing services hereunder of the confidentiality provisions of this Contract.

EE. Contractor's Charitable Activities Compliance

The Supervision of Trustees and Fundraisers for Charitable Purposes Act regulates entities receiving or raising charitable contributions. The "Nonprofit Integrity Act of 2004" (SB 1262, Chapter 919) increased Charitable Purposes Act requirements. By requiring Contractors to complete the Charitable Contributions Certification (Form PW-12), the County seeks to ensure that all County contractors which receive or raise charitable contributions comply with California law in order to protect the County and its taxpayers. A Contractor which receives or raises charitable contributions without complying with its obligations under California law commits a material breach subjecting it to either contract termination or debarment proceedings or both. (County Code Chapter 2.202).

Department of the Treasury
Internal Revenue Service
Notice 1015

(Rev. December 2003)

**Have You Told Your Employees About the
Earned Income Credit (EIC)?**

What Is the EIC?

The EIC is a refundable tax credit for certain workers.

A change to note. Workers **cannot** claim the EIC if their 2003 investment income (such as interest and dividends) is over \$2,600.

Which Employees Must I Notify About the EIC?

You must notify each employee who worked for you at any time during the year and from whom you did not withhold income tax. However, you do not have to notify any employee who claimed exemption from withholding on **Form W-4**, Employee's Withholding Allowance Certificate.

Note: *You are encouraged to notify each employee whose wages for 2003 are less than \$34,692 that he or she may be eligible for the EIC.*

How and When Must I Notify My Employees?

You must give the employee one of the following:

- The **IRS Form W-2**, Wage and Tax Statement, which has the required information about the EIC on the back of **Copy B**.
- A substitute Form W-2 with the same EIC information on the back of the employee's copy that is on Copy B of the IRS Form W-2.
- **Notice 797**, Possible Federal Tax Refund Due to the Earned Income Credit (EIC).
- Your written statement with the same wording as Notice 797.

If you are required to give Form W-2 and do so on time, no further notice is necessary if the Form W-2 has the required information about the EIC on the back of the employee's copy. If a substitute Form W-2 is given on time but does not have the required information, you must notify the employee within 1 week of the date the substitute Form W-2 is given. If Form W-2 is required but is not given on time, you must give the employee Notice 797 or your written statement by the date Form W-2 is required to be given. If Form W-2 is not required, you must notify the employee by February 9, 2004.

You must hand the notice directly to the employee or send it by First-Class Mail to the employee's last known address. You will not meet the notification requirements by posting Notice 797 on an employee bulletin board or sending it through office mail. However, you may want to post the notice to help inform all employees of the EIC. You can get copies of the notice by calling 1-800-829-3676, or from the IRS website at www.irs.gov.

**How Will My Employees Know If They Can
Claim the EIC?**

The basic requirements are covered in Notice 797. For more detailed information, the employee needs to see the 2003 instructions for Form 1040, 1040A, 1040EZ, or **Pub. 596**, Earned Income Credit (EIC).

How Do My Employees Claim the EIC?

Eligible employees claim the EIC on their 2003 tax return. Even employees who have no tax withheld from their pay or owe no tax can claim the EIC and get a refund, but they must file a tax return to do so. For example, if an employee has no tax withheld in 2003 and owes no tax but is eligible for a credit of \$791, he or she must file a 2003 tax return to get the \$791 refund.

**How Do My Employees Get Advance EIC
Payments?**

Eligible employees who expect to have a qualifying child for 2004 can get part of the credit with their pay during the year by giving you a completed **Form W-5**, Earned Income Credit Advance Payment Certificate. You **must** include advance EIC payments with wages paid to these employees, but the payments are not wages and are not subject to payroll taxes. Generally, the payments are made from withheld income, social security, and Medicare taxes. For details, see **Circular E (Pub. 15)**, Employer's Tax Guide.

What is the Safely Surrendered Baby Law?

California's Safely Surrendered Baby Law allows parents to give up their baby confidentially. As long as the baby has not been abused or neglected, parents may give up their newborn without fear of arrest or prosecution.

How does it work?

A distressed parent who is unable or unwilling to care for a baby can legally, confidentially and safely give up a baby within three days of birth. The baby must be handed to an employee at a Los Angeles County emergency room or fire station. As long as the child shows no signs of abuse or neglect, no name or other information is required. In case the parent changes his or her mind at a later date and wants the baby back, workers will use bracelets to help connect them to each other. One bracelet will be placed on the baby, and a matching bracelet will be given to the parent.

What if a parent wants the baby back?

Parents who change their minds can begin the process of reclaiming their newborns within 14 days. These parents should call the Los Angeles County Department of Children and Family Services at 1-800-540-4000.

Can only a parent bring in the baby?

In most cases, a parent will bring in the baby. The law allows other people to bring in the baby if they have legal custody.

Does the parent have to call before bringing in the baby?

No. A parent can bring in a baby anytime, 24 hours a day, 7 days a week so long as the parent gives the baby to someone who works at the hospital or fire station.

Does a parent have to tell anything to the people taking the baby?

No. However, hospital personnel will ask the parent to fill out a questionnaire designed to gather important medical history information, which is very useful in caring for the child. Although encouraged, filling out the questionnaire is not required.

What happens to the baby?

The baby will be examined and given medical treatment, if needed. Then the baby will be placed in a pre-adoptive home.

What happens to the parent?

Once the parent(s) has safely turned over the baby, they are free to go.

Why is California doing this?

The purpose of the Safely Surrendered Baby Law is to protect babies from being abandoned by their parents and potentially being hurt or killed. You may have heard tragic stories of babies left in dumpsters or public bathrooms. The parents who committed these acts may have been under severe emotional distress. The mothers may have hidden their pregnancies, fearful of what would happen if their families found out. Because they were afraid and had nowhere to turn for help, they abandoned their infants. Abandoning a baby puts the child in extreme danger. It is also illegal. Too often, it results in the baby's death. Because of the Safely Surrendered Baby Law, this tragedy doesn't ever have to happen in California again.

A baby's story

At 8:30 a.m. on Thursday, July 25, 2002, a healthy newborn baby was brought to St. Bernardine Medical Center in San Bernardino under the provisions of the California Safely Surrendered Baby Law. As the law states, the baby's mother did not have to identify herself. When the baby was brought to the emergency room, he was examined by a pediatrician, who determined that the baby was healthy and doing fine. He was placed with a loving family while the adoption process was started.

Every baby deserves a chance for a healthy life. If someone you know is considering abandoning a newborn, let her know there are other options.

It is best that women seek help to receive proper medical care and counseling while they are pregnant. But at the same time, we want to assure parents who choose not to keep their baby that they will not go to jail if they deliver their babies to safe hands in any Los Angeles County hospital ER or fire station.

Sin pena. Sin culpa. Sin peligro.

**Los recién nacidos pueden ser entregados
en forma segura en la sala de emergencia de
cualquier hospital o en un cuartel de bomberos

¿Qué es la Ley de Entrega de Bebés Sin Peligro?

La Ley de Entrega de Bebés Sin Peligro de California permite a los padres entregar a su recién nacido confidencialmente. Siempre que el bebé no haya sufrido abuso ni negligencia, padres pueden entregar a su recién nacido sin temor a ser arrestados o procesados.

¿Cómo funciona?

El padre/madre con dificultades que no pueda o no quiera cuidar de su recién nacido puede entregarlo en forma legal, confidencial y segura, dentro de los tres días del nacimiento. El bebé debe ser entregado a un empleado de una sala de emergencias o de un cuartel de bomberos del Condado de Los Angeles. Siempre que el bebé no presente signos de abuso o negligencia, no será necesario suministrar nombres ni información alguna. Si el padre/madre cambia de opinión posteriormente y desea recuperar a su bebé, los trabajadores utilizarán brazaletes para poder vincularlos. El bebé llevará un brazalete y el padre/madre recibirá un brazalete igual.

¿Qué pasa si el padre/madre desea recuperar a su bebé?

Los padres que cambien de opinión pueden empezar el proceso de reclamar a su recién nacido dentro de los 14 días. Estos padres deberán llamar al Departamento de Servicios para Niños y Familias (Department of Children and Family Services) del Condado de Los Angeles, al 1-800-540-4000.

¿Sólo los padres podrán llevar al recién nacido?

En la mayoría de los casos, los padres son los que llevan al bebé. La ley permite que otras personas lleven al bebé si tienen la custodia legal del menor.

¿Los padres deben llamar antes de llevar al bebé?

No. El padre/madre puede llevar a su bebé en cualquier momento, las 24 horas del día, los 7 días de la semana, mientras que entregue a su bebé a un empleado del hospital o de un cuartel de bomberos.

¿Es necesario que el padre/madre diga algo a las personas que reciben al bebé?

No. Sin embargo, el personal del hospital le pedirá que llene un cuestionario con la finalidad de recabar antecedentes médicos importantes, que resultan de gran utilidad para los cuidados que recibirá el bebé. Es recomendado llenar este cuestionario, pero no es obligatorio hacerlo.

¿Qué ocurrirá con el bebé?

El bebé será examinado y, de ser necesario, recibirá tratamiento médico. Luego el bebé se entregará a un hogar preadoptivo.

¿Qué pasará con el padre/madre?

Una vez que los padres hayan entregado a su bebé en forma segura, serán libres de irse.

¿Por qué California hace esto?

La finalidad de la Ley de Entrega de Bebés Sin Peligro es proteger a los bebés del abandono por parte de sus padres y de la posibilidad de que mueran o sufran daños. Usted probablemente haya escuchado historias trágicas sobre bebés abandonados en basureros o en baños públicos. Es posible que los padres que cometieron estos actos hayan estado atravesando dificultades emocionales graves. Las madres pueden haber ocultado su embarazo, por temor a lo que pasaría si sus familias se enteraran. Abandonaron a sus recién nacidos porque tenían miedo y no tenían adonde recurrir para obtener ayuda. El abandono de un recién nacido lo pone en una situación de peligro extremo. Además es ilegal. Muy a menudo el abandono provoca la muerte del bebé. Ahora, gracias a la Ley de Entrega de Bebés Sin Peligro, esta tragedia ya no debe suceder nunca más en California.

Historia de un bebé

A las 8:30 a.m. del jueves 25 de julio de 2002, se entregó un bebé recién nacido saludable en el St. Bernardine Medical Center en San Bernardino, en virtud de las disposiciones de la Ley de Entrega de Bebés Sin Peligro. Como lo establece la ley, la madre del bebé no se tuvo que identificar. Cuando el bebé llegó a la sala de emergencias, un pediatra lo revisó y determinó que el bebé estaba saludable y no tenía problemas. El bebé fue ubicado con una buena familia, mientras se iniciaban los trámites de adopción.

**Cada recién nacido merece una
oportunidad de tener una vida saludable.
Si alguien que usted conoce está pensando
en abandonar a un recién nacido, infórmele
qué otras opciones tiene.**

Es mejor que las mujeres busquen ayuda para recibir atención médica y asesoramiento adecuado durante el embarazo. Pero al mismo tiempo, queremos asegurarles a los padres que optan por no quedarse con su bebé que no irán a la cárcel si dejan a sus bebés en buenas manos en cualquier sala de emergencia de un hospital o en un cuartel de bomberos del Condado de Los Angeles.
